EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Election/Restrictions

Applicant's election of group I in the paper received 3/22/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 11-33 to the invention non-elected without traverse. Accordingly, claims 11-33 have been cancelled.

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of: a pair of source regions, each disposed in the substrate adjacent to one sidewall of the trench and electrically connected by the conductive layer, a source isolation layer disposed on the conductive layer, a pair of tunnel oxide layers, respectively disposed on one sidewall of the trench and the source isolation layer, and a pair of control gate spacers, respectively disposed on each vertical portion of the U-shaped floating gate,

substantially having the same width as the vertical portions, as required by independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
